SAFETY INSTRUCTIONS
1. To avoid electric shock, risk of fire or injury, please read the user manual carefully before using the appliance and keep it for future reference.
2. This appliance is for household use only. Please use suitable power source.
3. Never immerse the appliance in water or other liquids.
4. Do not use the appliance under direct sunshine.
5. Please turn off the appliance when not in use otherwise it may result in danger.
6. Please turn off the appliance and unplug the socket when unattended otherwise it may result in danger.
7. Keep the appliance away from children.
8. The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
9. Children should be supervised to ensure that they do not play with the appliance.
10. With any indication of damage or malfunction, please stop using the appliance immediately to avoid hazards. Take it to / Contact the authorized service center for repair. Do not attempt to repair or change any parts by yourself.
11. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid hazards.
12. Please turn off and unplug the appliance before cleaning or maintenance.
13. Clean the surface of the appliance with dry cloth. Do not use corrosive detergent or solvent to clean. Do not swash the appliance with water.
14. Please turn off and unplug the appliance when not in use. Make sure the power is off before pulling out the plug. Do not pull the cord.
15. When the appliance is not in use for a prolonged period, please turn it off, unplug it, pack it well and store it in dry cool place.
16. Forbid to put flammable and explosive objects around the appliance, and do not use the appliance in an environment full of flammable gas and powder. Keep away from any fire and heat sources.
17. The appliance generates high temperature steam. Always handle with care and warn other users of the potential dangers.
18. Unwind and straighten the power cord before use.
19. Place the appliance on a firm and steady surface.
20. The iron must be used and rested on a flat and stable surface.
21. Avoid power cord touches the soleplate.
22. When placing the iron on its stand, ensure that the surface on which the stand is placed is stable.
23. The plug must be removed from the socket before the water reservoir is filled with water.
24. Empty the water tank after use.
25. Do not add perfume, vinegar or other chemical liquids into the water tank; they can damage the appliance seriously.
26. Do not use the appliance when it is damaged or performs abnormally.
27. The iron is not to be used if it has been dropped, if there are visible signs of damage or if it is leaking.
28. Do not touch the soleplate during rest or right after ironing to avoid injury by heat.
29. Do not roll the power cord round the appliance or base for storage until it is cooled down completely.
30. The iron must not be left unattended while it is connected to the supply mains.
31. Do not touch the surfaces marked with symbol △ during operation or rest to avoid injury by heat. (Please refer to the following Figure 1 and Figure 2)
Figure 1: Left Side-Hot Surface

Figure 2: Right Side-Hot Surface
PARTS DESCRIPTION

1. Steam Control Knob & Self-Cleaning Knob
2. Water Spray Button
3. Burst Of Steam Button
4. Water Inlet Cover
5. Spray Nozzle
6. Temperature Dial
7. Pilot Light
OPERATION INSTRUCTION

1. Sort out the articles to be ironed according to the type of fabric. This will minimize the frequency of temperature adjustment for different garments.

2. Test ironing a small area on the backside or inside of the garment if you are unsure about the type of fabric. Start with a low temperature and increase gradually.

3. Temperature adjustment needs certain time to reach the required level no matter it is higher or lower. Wait for about three minutes before ironing heat sensitive fabrics.

4. Delicate fabrics such as silk, wool, velour, and etc. are best ironed with an ironing cloth to prevent shine marks.

5. Read the garment labels and follow the manufacturer’s ironing instructions that are often shown by below symbols:

<table>

HOW TO FILL WATER

This iron has horizontal filling option.

1. Disconnect the iron from the socket.

2. Move the steam control knob to ⬇️ position.

3. Open the water inlet cover as in Figure 3.

4. Fill water through the water inlet hole upto 'MAX' position of the water tank.

5. Close the water inlet cover and wipe out any spillages on the iron.

Note: For best result, please use de-mineralized water or distilled water.

Do not use chemically de-scaled water or any other liquids.
FIRST TIME IRONING
1. Remove any protective films or stickers from the sole plate and the iron body.
2. Unwind and straighten the power cord.
3. Fill the iron as described in the section of “How To Fill Water”.
4. Connect the iron to a suitable socket.
5. Turn the temperature dial in clockwise direction to (max) position; pilot light will glow to indicate that the iron is heating up.
6. Pilot light will go off when the required temperature is reached.
7. Move the steam control knob to position; steam starts to come out from the vents on soleplate.
8. Begin first time ironing with an old towel.
9. When the water tank is empty and there is no more steam can be produced, it means the preparation work is completed and the iron is ready for proper use.

SPRAY
This function can be used at any time and it does not affect other functions.
1. Fill the iron as described in the section of “How To Fill Water”.
2. Aim the nozzle to the garment.
3. Press the spray button.

Note: It may be necessary to press the spray button a few times to start the function.

DRY IRONING
1. Connect the iron with a suitable socket.
2. Move the steam control knob to position.
3. Turn the temperature dial in clockwise direction, select ‘●’ (1 dot), ‘●●’ (2 dots) or ‘●●●’ (3 dots) according to the recommendation of the garment label.
4. Pilot light will glow to indicate that the iron is heating up.
5. The pilot light will go off when the required temperature is reached.
6. The iron is ready to use.
7. After used, turn the temperature dial in anti-clockwise direction to ‘MIN’ position.
8. Disconnect the iron from the socket.
9. When the iron gets cool completely, store it vertically in a safe place.
STEAM IRONING

1. Fill the iron as described in the section of "How To Fill Water".

2. Connect the iron with a suitable socket.

3. Turn the temperature dial in clockwise direction to position and move the steam control knob to position.
   (Do not use 1 dot or 2 dots setting for steam ironing).

4. Pilot light will glow to indicate that the iron is heating up.

5. Pilot light will go off when the required temperature is reached.

6. The iron is ready for use.

7. Adjust steaming by moving the steam control knob forward and backward.

8. After used, turn the temperature dial in anti-clockwise direction to ‘MIN’ position.

9. Disconnect the iron from the socket.

10. Follow the instructions in “Emptying the Water Tank” after every use.

11. When the iron gets cool completely, store it vertically in a safe place.
A. Burst of steam in horizontal position

This function provides extra amount of steam to remove stubborn wrinkles.

1. Fill the iron as described in the section of “How To Fill Water”.
2. Connect the iron with a suitable socket.
3. Turn the temperature dial knob to (max) position.
4. Pilot light will glow to indicate that the iron is heating up.
5. Pilot light will go off when the required temperature is reached.
6. The iron is ready for use.
7. Press the burst of steam button.
8. Steam will penetrate into the garment to remove the wrinkles.
9. Wait for few seconds before pressing the burst of steam button again when there are stubborn wrinkles.

**Note:** It may be necessary to press the burst of steam button few times to start this function. For optimum steam quality, do not operate the burst of steam more than three times in succession.

B. Burst of steam in vertical position

| Warning: Do not apply steam on any clothes or fabrics that are being worn by human or pets. Temperature of steam is very high. |

This function provides extra amount of steam to remove wrinkles on delicate garments in hanging position, hanging curtains, or other hanging fabrics.

1. Fill the iron as described in the section of ‘How To Fill Water’.
2. Connect the iron with a suitable socket.
3. Turn the temperature dial knob to (max) position.
4. Pilot light will glow to indicate that the iron is heating up.
5. Pilot light will go off when the required temperature is reached.
6. The iron is ready for use.
7. Hold the iron vertically between 15-30 centimeters away from the garment.
8. Press the burst of steam button.
9. Steam will penetrate into the garment to remove wrinkles.
10. Wait for few seconds before pressing the burst of steam button again when there are stubborn wrinkles.

**Note:** It may be necessary to press the burst of steam button few times to start this function. For optimum steam quality, do not operate the Burst of steam more than three times in succession.
SELF-CLEANING
This function removes the scales and minerals built up in the iron, and remains unit in the best condition if this function is performed at least once a month or more regularly depending on the hardness of the water used.

1. Fill the iron as described in the section of ‘How To Fill Water’. Fill the water tank up to half.
2. Set the steam control knob to position.
3. Place the iron on a stable surface in upright standing position.
4. Connect the iron with a suitable socket.
5. Turn the temperature dial in clockwise direction to (max) position.
6. Pilot light will glow to indicate the iron is heating up.
7. Pilot light will go off when the required temperature is reached.
8. Wait for one next heating cycle; pilot light will glow and go off.
9. Turn the temperature dial in anti-clockwise direction to ‘MIN’ position.
10. Disconnect the iron from the socket.
11. Hold the iron horizontally over a sink.
12. Move and hold the Self-Cleaning knob to position.
13. Steam and boiling hot water will emit from the holes on the sole plate which contains scales and minerals that deposited in steam chamber in previous uses.
14. Gently move the iron back and forth until the water tank is empty.
15. When self-cleaning is completed, release the self-cleaning knob.
16. Rest your steam iron back on its heel rest and allow it to fully cool down.
17. Wipe the soleplate with a cold damp cloth.

**Caution:** Keep skin/body away from the hot water and hot surface of the iron.

ANTI-DRAP
1. Anti-drip system is designed to prevent the water escapes from the soleplate automatically when the iron is too cold.
2. During use, the anti drip system may emit a loud clicking sound, particularly during heat-up or whilst cooling down. This is normal and indicates that the system is functioning correctly.
BUILD-IN ANTI-SCALE SYSTEM
The built-in anti-scale cartridge is designed to reduce the build-up of lime scale which occurs during steam ironing. This will prolong the working life of your iron.

Note: The anti-scale cartridge will not completely stop the natural process of lime scale build-up.

EMPTYING THE WATER TANK
1. Disconnect the iron from socket.
2. Move the steam control knob to position.
3. Open the water inlet cover and remove water from water tank as (Figure 9).
4. Shake it to remove any remaining water out of the filling hole.
5. When the iron gets cool completely, store it vertically in a safe place.

MAINTENANCE INSTRUCTION
CLEANING THE IRON
1. Disconnect the iron from the socket and allow the iron gets cool completely.
2. Use a dry cloth or non-scratching cleaner to remove any deposits on the soleplate or the iron body.

Note: 1. Never use sharp or rough objects to remove the deposits on the soleplate.
2. Never use any abrasive, vinegar or descaling agents to clean the iron.

TROUBLESHOOTING
If the iron does not perform well, please check the following points.

WARRANTY
1. The product has 1 year warranty from the date of purchase.

2. The warranty shall not apply:
   A. to any product subjected to misuse, alteration, act of God, improper handling, improper
      transport, improper testing or unauthorized repair;
   B. to cosmetic problems or defects which result from normal wear and tear under ordinary use
      yet not affecting the performance or use of the product;
   C. if the product is disassembled or altered;
   D. to any packing, transportation, export / import tax or any related expenses.

3. CUSTOMER MUST PRESENT THE SALES INVOICE OR RECEIPT FOR 1 YEAR
   WARRANTY SERVICES.

4. Please bring along the product and sales invoice or receipt to our services center for warranty
   services during office hour:
   Address : Unit A, 20/F, Yip Shing Industrial Centre, No.19,
             Yip Shing Street, Kwai Chung.
   Service Hotline : (852) 2428 1500

   Service Hours:
   Monday-Friday : 9:00am - 6:00pm
   Saturday : 9:00am - 4:00pm
   Sunday & Public Holiday : Closed

NOTES
• This appliance must be plugged into a specific 220-240V socket. Please make sure the plug is
  fully plugged-in before use. Do not use any adapter or extension cord.

• This appliance is a high energy consumption product, please do not use with other high energy
  consumption product into the same supply socket.

• THE APPLIANCE IS FOR HOUSEHOLD USE ONLY.

ENVIRONMENT
Do not throw away the appliance with the normal household waste at the end of its life, but
hand it in at an official collection point for recycling. By doing this, you help preserving the
environment.

IMPORTANT NOTICES
IN NO EVENT SHALL OUR COMPANY OR THE SUPPLIER BE LIABLE TO YOU OR ANY
OTHER PARTY FOR ANY DIRECT, INDIRECT, GENERAL SPECIAL, INCIDENTAL,
CONSEQUENTIAL, EXEMPLARY OR OTHER DAMAGES ARISING OUT OF THE USE OR
INABILITY TO USE THE PRODUCT (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR
INJURY, LOSS OF PROPERTY, BUSINESS PROFITS, BUSINESS INTERRUPTION) OR FROM
ANY BREACH OF WARRANTY, EVEN IF OUR COMPANY OR SUPPLIER HAS BEEN
ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO CASE SHALL OUR COMPANY
OR SUPPLIER’S LIABILITY EXCEED THE AMOUNT YOU PAID FOR THE PRODUCT.
Specifications, designs and dimensions are subject to change without prior notice.
